TRUSTED IN OVER
40 MILLION
HOMES

Quality matters.

We believe every detail matters. With Schlage, you don't just get what you pay for – you get even more. Trusted in over 40 million homes, Schlage's extensive range of reliable and innovative door hardware products are built with a focus on intentional design and quality. Where some see just a door, Schlage sees security and dependability, and the opportunity to help consumers protect their homes every day and every night.

TRADITIONAL

Sometimes, where we've been in the past can light the way forward. What was beautiful before remains beautiful today. And, in the right hands, a nod to tradition becomes a thrilling departure from the ordinary.

TRANSITIONAL

Not too old, not too new. Not too ornate, not too restrained. The middle ground doesn't have to be boring — quite the opposite. By elevating nearly any look, these styles show that flexibility isn't just functional; it's beautiful.

CONTEMPORARY

High fashion sans the stuffiness. Clean lines, crisp edges. Sleek and sophisticated, yet imminently approachable. A modern look doesn't have to leave you cold. And sometimes, minimal styling means maximum impact.

One system. *Endless possibilities.*

Schlage Custom™ Door Hardware is our top-of-the-line offering that allows you to create the perfect customized look to elevate your home's style. It's easy to find a personalized option and effortless to install and update as your style changes.

Schlage Custom **combined interior door hardware** offers both hall/closet and bed/bath functionality in one lock. From nursery to bedroom to home office, you can adapt to the ever-changing life of a room by switching from one function to another. Simply insert the locking pin on the interior side of the lock to enable locking for bedrooms and bathrooms.

- Architecturally-inspired styles featuring premium designer look and feel
- Concealed screws and low profile trim
- Combined interior function works for both privacy and passage doors
- Update style by removing the knob, lever or trim, without installing a whole new lock
- Available in non-turning knobs and levers (sold in pairs) and high-style 3/4 trim handlesets
